Management Discussion and Analysis

Global Outlook

The Polymer Market size was valued at USD 629.5 Billion in 2023 and is projected to reach USD 659.9 Billion by 2030, growing at a CAGR of 4.7 % during the forecast period 2024-2030.

The Polymers market is anticipated to exhibit fluctuating growth patterns in the near term, largely influenced by persistent factors contributing to sluggish growth in 2023. However, improvements in the economy and alleviation of supply chain concerns are projected to facilitate a rebound in demand for the Plastics and Polymers market, particularly in the latter half of 2024.

In anticipation of an economic downturn, the Plastics and Polymers industry faces several key challenges to address during the short- and medium-term forecast. These include shifting consumer preferences, the need for industrial policy amendments to align with growing environmental concerns, significant fluctuations in raw material costs due to geopolitical tensions, and expected subdued economic growth.

Effective collaboration within the chemical industry and across the value chain is imperative for establishing a robust regulatory framework and achieving consensus on initiatives supporting a balanced approach considering supply, demand, and financial factors.

Despite the anticipated challenges in 2024, the Plastics and Polymers industry can leverage valuable opportunities by prioritizing resilience and innovation. This entails maintaining investment discipline, actively engaging in business ecosystems, and demonstrating a strong commitment to sustainability, thereby underscoring the chemicals industry's pivotal role in driving sustainable solutions.

Furthermore, the Global Plastics and Polymers Market Analysis Report offers a comprehensive assessment with detailed qualitative and quantitative research, evaluating the current scenario and providing future market potential for different product segments across various applications and end-uses until 2031.

Growth Factors

India's plastic industry is expected to grow in the coming years as the demand for plastic products in packaging, automotive and construction, consumer goods, and other sectors continues to grow. Technological developments and a growing emphasis on sustainability through the development of environmentally friendly plastics are also contributing to the industry's growth. Government initiatives promoting manufacturing and a growing middle class are further contributing to the growth of plastic consumption in India.

Market Drivers

The increased need for polymers in many industries is the key driver for the global polymer market growth from 2024 to 2029.

The polymer possesses a number of helpful features that make it appropriate for a variety of end-use applications in the industry. It has low strength and hardness, but is very ductile and has high impact strength; it will stretch rather than break, which is why it is utilized in fashion, sports, and toys since it allows for easy product shaping and packing flexibility. Electrical treeing resistance is provided by polymer-based goods; however, they can become electrostatically charged. Polymer is becoming more widely used in agriculture due to increased demand for drippers, micro tubes, nozzles, and emission pipes in irrigation fields. The use of polymer in packing and transportation protects goods from damage and corrosion, improves their movement, and serves as a brand touch point. Polymers, which are the building components for most packaging materials, will see increased demand as wealth and population expand.

The biggest demand in the market is for thermoplastics, which has, been ascribed to a rise in demand for thermoplastics in the food packaging industry due to their high mechanical strength, cost-effectiveness, and ease of manufacture. In the polymer market, polyethylene is the fastest growing. Consumer spending and production operations in different industries, including automotive, construction, and packaging, are likely to accelerate.

Market Restraints

The major factors that are leading to market downfall are several dangerous chemical elements in plastic, the Harmful effects of plastics on the environment, and the implementation of stringent regulations. Plastics are lightweight, corrosion-resistant, and have excellent thermal and electrical insulating properties, making them ideal for a wide range of residential, commercial, and industrial applications. Furthermore, when compared to comparable metal products, plastic products are less expensive. As a result, during the last two decades, traditional plastic has become increasingly popular around the world. However, due to the inclusion of several dangerous chemical elements in plastic, it is non- decomposable, limiting its use in a variety of end-use applications.

The installation of rigorous laws by regulatory authorities against the usage of plastiC iS a major constraining factor influencing the polymer market. The government is taking steps to prevent plastic pollution from damaging the environment, which is slowing the growth of the plastic polymer business.

Key Market Challenges

The uneven recovery across different end markets and geographies presents a key challenge, prompting companies to prioritize cost consciousness and operational efficiency. Factors such as global economic slowdown, the impact of geopolitical tensions, delayed growth in specific regions, and the risks of stagflation necessitate a vigilant and forward-looking approach among Plastics and Polymers industry players. Adaptations in supply chain dynamics and the growing emphasis on cleaner and sustainable practices further drive strategic shifts within companies.

Key Market Opportunities

Polymers market players are directing investments toward acquiring new technologies, securing raw materials through efficient procurement and inventory management, enhancing product

portfolios, and leveraging capabilities to sustain growth amidst challenging conditions. Regional-specific strategies are being emphasized due to highly varying economic and social challenges across countries. Government policies and incentives promoting the energy transition have bolstered manufacturing sector growth, particularly with the support of bio-chemicals and materials.

India Plastics Market Overview:

The market size of the plastic industry in India is poised for significant growth, driven by increasing demand across various sectors such as packaging, automotive, construction, and consumer goods. The industry's expansion is supported by technological advancements and a focus on sustainability, including the development of environmentally friendly plastics. Government initiatives aimed at boosting manufacturing and the rising middle class further contribute to the growth in plastic consumption. As a key player in the global market, India's plastic industry is expected to continue its upward trajectory, reflecting its importance in the national economy.

The plastic industry in India is one of the most important industries in the country's economy. The plastic industry traces its roots back to 1957 when polystyrene was first produced in India. Plastic consumption in India grew by 23-fold since then, reaching about 22 million tons. Per capita plastic consumption also grew from 1 kg per capita to 15 kg per inhabitant. India accounts for about 6% of global plastic use and is the third largest consumer of the material after China and the US. Economic growth and a growing population are expected to continue to drive plastic use in India over the coming decades.

According to estimates, India's plastic consumption could reach over 160 million metric tons (MT) by 2060, which would be more than double its current share in global plastic consumption. About 40 lakh workers are employed in the Indian plastics industry. The processing units and the exporters are about 30,000 and 2,000, respectively. Of these, 85 to 90% are small and medium enterprises (SMEs). The Indian plastics industry produces a wide range of products, such as plastic and linoleum, housewares products, cordage, fishnets, and floor coverings. It also creates medical items, packaging items, plastic films, pipes, and raw materials, among others. The country mainly exports plastic raw materials, films, sheets, woven sacks, fabrics, tarpaulin, etc. According to the source report, there are 4,953 registered plastic manufacturing/recycling units engaged in plastic activities in 30 states/Union territories of India and 823 non-registered plastic manufacturing/recycling units in 9 states/UTs. These plastic products are exported to more than 150 nations, mostly in Europe, Africa, & Asia.

INDEPENDENT AUDITOR'S REPORT

To the Members of Triliance Polymers Limited

Report on Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **Triliance Polymers Limited** formerly known as Leena Consultancy Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and the Cash Flow Statement for the year then ended and notes to the financial statements including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its loss, total comprehensive loss, its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics issued by ICAI. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in Annual report but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance Responsibilities for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the

accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure B to the Independent Auditor's Report

Referred to in paragraph 2(vi) under "Report on Other Legal and Regulatory Requirements" of our report on even date to the members of the Company on financial statements for the year ended March 31, 2024

Report on the Internal Financial Controls with reference to financial statements under clause (i) of Sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of the Company as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls with reference to Financial Statements.

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for Internal Financial Controls with reference to Financial Statements.

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate

TRILIANCE POLYMERS LIMITED

(Formerly known as Leena Consultancy Limited)

CIN L74110MH1983PLC031034

internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A Company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

TRILIANCE POLYMERS LIMITED

(Formerly known as Leena Consultancy Limited)

CIN L74110MH1983PLC031034

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2024 based on the internal financial control with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Control over Financial Reporting (“Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”).

Summary of Material Accounting Policies

This note provides a list of the material accounting policies adopted in the presentation of these financial statements.

1.01 BASIS OF PREPARATION

(i) Compliance with Ind AS :

The financial statements comply in all material aspects with Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act, 2013 ("the Act"), and relevant rules issued thereunder . In accordance with proviso to the Rule 4A of the Companies (Accounts) Rules, 2014, the terms used in these financial statements are in accordance with the definitions and other requirements specified in the applicable Accounting standards.

(ii) Authorization of financial statements

The financial statements were approved for issue by Board of Directors on May 30, 2024

(iii) Historical cost convention :

The financial statements have been prepared on a historical cost basis, except certain financial assets and liabilities is measured at fair value.

1.02 FUNCTIONAL AND PRESENTATION CURRENCY

These financial statements are presented in India Rupees (INR), which is also the company's functional currency. All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs, except where otherwise indicated.

1.03 CLASSIFICATION OF ASSETS AND LIABILITIES INTO CURRENT/NON CURRENT

All assets and liabilities have been classified as current or non-current as per Company's normal operating cycle. Based on the nature of operations, the Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

1.04 USE OF JUDGEMENTS, ESTIMATES & ASSUMPTIONS

While preparing financial statements in conformity with Ind AS, the management makes certain estimates and assumptions that require subjective and complex judgments. These judgments affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses, disclosure of contingent liabilities at the statement of financial position date and the reported amount of income and expenses for the reporting period. Financial reporting results rely on our estimate of the effect of certain matters that are inherently uncertain. Future events rarely develop exactly as forecast and the best estimates require adjustments, as actual results may differ from these estimates under different assumptions or conditions. The management continually evaluate these estimates and assumptions based on the most recently available information.

Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are as below:

Key sources of estimation uncertainty

- i) Financial instruments; (Refer note 19)

1.05 CASH AND CASH EQUIVALENTS

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

1.06 FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognized when a Company becomes a party to the contractual provisions of the instruments.

Initial Recognition and Measurement – Financial Assets and Financial Liabilities

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in the Statement of Profit and Loss. However, trade receivables that do not contain a significant financial component are measured at transaction price.

Classification and Subsequent Measurement: Financial Assets

The Company classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income ("FVTOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- the entity's business model for managing the financial assets and
- the contractual cash flow characteristics of the financial asset.

Amortized Cost:

A financial asset is classified and measured at amortized cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

FVTOCI:

A financial asset is classified and measured at FVTOCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

FVTPL:

A financial asset is classified and measured at FVTPL unless it is measured at amortized cost or at FVTOCI.

All recognized financial assets are subsequently measured in their entirety at the amortized cost or fair value, depending on the classification of the financial assets.

Impairment of Financial Assets :

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Classification and Subsequent measurement: Financial Liabilities

The Company's financial liabilities include trade payables and other financial liabilities.

Financial Liabilities at FVTPL:

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition as FVTPL. Gains or losses on financial liabilities held for trading are recognized in the Statement of Profit and Loss.

Other Financial Liabilities:

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest

rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition of Financial Assets and Financial Liabilities:

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred. If the Company enters into transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

A Financial liability is derecognized when the obligation under the liability is discharged or Cancelled or expires.

Write-off:

The gross carrying amount of a financial asset is written off when there no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

1.07 PROVISIONS

Provisions are recognized when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a current pre-tax rate. The increase in the provision due to the passage of time is recognized as interest expense.

CONTINGENT LIABILITIES

Contingent liabilities are disclosed in the case of:

- a present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- a present obligation arising from the past events, when no reliable estimate is possible;
- a possible obligation arising from past events, unless the probability of outflow of resources is remote.

CONTINGENT ASSETS

Contingent Assets is disclosed when inflow of economic benefits is probable.

1.08 REVENUE RECOGNITION

Interest

Interest income, if any, is recognized using the effective interest rate method taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head “other income” in the Statement of Profit and Loss.

1.09 EARNINGS PER SHARE (EPS)

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders is adjusted for after income tax effect of interest and other financing cost associated with dilutive potential equity shares and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

19 Financial Instruments

- (i) The fair values of the financial assets and liabilities are included at the amount at which the instruments can be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale

The following methods and assumptions were used to estimate the fair values:

a) The carrying amounts of cash and cash equivalents, inter corporate deposits, trade payables, other financial assets and other financial liabilities are considered to be the same as their fair values, due to their short-term nature.

b) For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values

- (ii) The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Directly or indirectly observable market inputs, other than level 1 inputs; and

Level 3: Inputs which are not based on observable market data

(h) Return on Capital employed,	Net loss/Capital Employed	(0.04)	(0.04)	0.00
(i) Return on investment.	Net Profit/Investments	-	-	NA

Explanations to variations in above ratios

Return on Equity, Net profit ratio and Return on capital employed: Due to no business activity in current year, there has been substantial reduction in the ratio.
For all the ratios above, there has been no turnover in the current financial year, thus the same is not calculated.

Where,

Shareholder's Equity = Equity Share Capital + Reserve and Surplus

Capital Employed = Share holder's Equity + Long term debt

Net Assets = Total Assets - Current Liability
